

Product Features

- The curved contour design is sleek and stylish;
- Adopted high and low frequency crossover inverted tube design, so that the box bass is quite good, make the sound more powerful;
- Shell Adopting ABS anti-UV material, safe and reliable, thickened shell can reduce resonance, durable and colourfast, anti-oxidation;
- Woofers PP+rubber rimmed woofers, 80mm Y35 external magnet design, polypropylene bass cone for more powerful bass;
- Tweeter PET diaphragm design, tweeter diaphragm using natural silk membrane. High-strength plastic horn, so that the sound level is clear, round and transparent, clear and bright;
- The mesh is made of 1060 pure aluminium, hardened and anti-oxidation treatment, not easy to deform and never rust;
- Mounting bracket Angle-adjustable design, bracket vertical and tilting two ways to install;
- E-type pure copper wire-turn audio transformer to ensure audio output fidelity, sufficient power, high efficiency, efficiency up to 90%;

Product Parameter

| | |
|------------------------|--------------------------------|
| Maximum Power | 160W |
| Rating | 80W |
| Input Voltage | 8Ω |
| (level of) Sensitivity | 90dB |
| Frequency Response | 70--20KHz |
| Product Size | 198x152x285mm |
| Material | ABS |
| Weights | 3.02kg |
| Horn Specifications | 6.5" Bass x 1 + 1" Tweeter x 1 |
| Colour | Black |
